

Hugo MARTINIÈRE

DATA SCIENTIST

Paris, France / +337 69 63 23 70 / martiniere.hugo.pro@gmail.com / [See My Linkedin Profile](#) / [See My Web Site](#)

Profile and Objective

Passionate about data science, I am eager to develop my expertise while gaining experience across various industries. I am looking for new opportunities in the data field, particularly in data analysis, machine learning, and predictive modeling. Through a dynamic role, I aim to improve my technical skills, contribute to impactful projects, and immerse myself in a collaborative, innovative environment.

EDUCATION

Master's Degree in Data Science

2024-2025 | Vannes | University of Southern Brittany

Master 1 in Applied Mathematics and Statistics

Specialization: Data Science and Statistical Modeling
2023-2024 | Vannes | University of Southern Brittany

Bachelor's Degree in Mathematics, Computer Science, and Statistics

Specialization: Statistics
2022-2023 | Vannes | University of Southern Brittany

University Diploma of Technology (DUT) in Statistical and Decision Computing

2020-2022 | IUT Southern Brittany | Vannes

TECHNICAL SKILLS

Languages: Python, SQL, Spark, VBA, HTML

Software: SAS, Power BI, Tableau, Dataiku, R

Office Tools: Excel, PowerPoint, Word

LANGUAGES

French: Native

English: B2 level

Spanish: A2 level

ASSETS

Dynamic, Reliable, Proactive, Team player,
Versatile, Autonomous, Perfectionist, Flexible

WORK EXPERIENCE

Data Scientist Apprenticeship

Société Générale, Paris La Défense | September 2024 – Present

- Conducting and automating statistical studies, presenting and simplifying results for business teams
- Updating scoring indicators using machine learning models

Data Science Project

Stade Lavallois Mayenne FC | January 2024 – May 2024

- Analyzed and compared physical success criteria between Ligue 1 and Ligue 2 to optimize the club's future transfer market strategies and needs

L'APRAS | April 2022 – June 2022

Rennes Métropole, CAF, City of Rennes, CCAS Rennes, Archipel Habitat, Néotoa, Espacil Habitat, Aiguillon Construction

- Created various vulnerability indices for the Rennes metropolitan area
- Developed dashboards and presented them to stakeholders

SKILLS & EXPERTISE

Machine Learning, Deep Learning, Data Analysis, Data Visualization, Predictive Modeling, Natural Language Processing (NLP), Statistical Analysis, Large Language Models (LLM)

HOBBIES & INTERESTS

Sports: Handball (1 year), Badminton (4 years – singles and doubles competitions), Football (8 years), Running.

Leisure Activities: Cinema, museums, concerts, travel, reading, and strategic games
